Connecting with the Mi Home/Xiaomi Home App This product works with the Mi Home/Xiaomi Home app*. Control your device with Mi Home/Xiaomi Home app.
Scan the QR code to download and install the app.
You will be directed to the connection setup page if the app is installed already. Or search for "Mi Home/Xiaomi Home" in the app store to download and install it.
Open the Mi Home/Xiaomi Home app, tap *+* on the upper right, and then follow the instructions to add your device.
* The app is referred to as Xiaomi Home app in Europe (except for Russia). The name of the app displayed on your device should be taken as the default.

instructions based on the current app version. Make sure the camera turns on and the network connection is stable during connecting. The indicator is blinking orange rapidly when waiting for a connection, and turns into blue once the camera is successfully connected.

Restoring Factory Settings
In case the network the camera is connected to, or the Xiaomi Account the
camera is paired with has to be changed, use a pin to press and hold the
reset button for about five seconds to restore factory settings. Then
reconnect the network and the Mi Home/Xiaomi Home app with the

camera.
Note: Restoring factory settings will not delete the content on the microSD

In the camera's plugin of the Mi Home/Xiaomi Home app, you can view the real-time surveillance screen, adjust the sharpness of the image, adjust the horizontal angle of the camera, capture and record the screen, and make remote calls.

Infrared Night Vision

The camera can automatically switch to night vision mode at night according to the change in ambient light. With built-in infrared night vision lights, the camera can clearly capture images/videos in the dark.

Playback

Specifications

The playback feature of the camera is only available when a compatible microSD card is installed.

The camera will automatically start recording video once a microSD card is installed and the camera is turned on. In the camera's plugin in the Mi Home/Xiaomi Home app, tap the playback button to enter the playback interface, then drag the timeline to select the time period to be played back. The maximum supported playback speed is 16x.

Resolution: 1080p Net Weight: Approx. 256 g Video Codec: H.265

Name: Xiaomi Smart Camera C200 Model: MJSXJ14CM • When the home surveillance assistant is enabled, the camera will record When the home surveillance assistant is enabled, the camera will record videos if it detects human movement and changes in real-time within its monitored area.
